Careful review and examination of the subject application are noted and appreciated. Applicants' representative thanks Examiner Corriellus for the indication of allowed and allowable matter.

### IN THE DRAWINGS

While Applicant's representative does not necessarily agree with the requirement to label FIGS. 1-3d, in order to further prosecution, FIGS. 1-3d have been labeled "conventional". Replacement FIGS. 1-3d are submitted herewith. As such, the objection to the drawings should be withdrawn.

### CLAIM REJECTIONS UNDER 35 U.S.C. §102

The rejection of claims 1, 2 and 8 under 35 U.S.C. §102 as being anticipated by Li '382 has been obviated by appropriate amendment and should be withdrawn.

The allowable matter of claim 3 has been incorporated into claim 1. As such, the presently claimed invention is fully patentable over the cited references and the rejection should be withdrawn.

CLAIM REJECTIONS UNDER 35 U.S.C. §103

The rejection of claims 9-12 under 35 U.S.C. §103 as being unpatentable over Li in view of the background section of the present application has been obviated by appropriate amendment to claim 1 and should be withdrawn. Claims 9-12 depend, directly or indirectly, from claim 1, which is now believed to be allowable.

As such, the presently claimed invention is fully patentable over the cited references and the rejection should be withdrawn.

Accordingly, the present application is in condition for allowance. Early and favorable action by the Examiner is respectfully solicited.

The Examiner is respectfully invited to call the Applicants' representative should it be deemed beneficial to further advance prosecution of the application.

If any additional fees are due, please charge our office Account No. 50-0541.

Respectfully submitted,

CHRISTOPHER P. MAIORANA, P.C.
